

Dear parent/carer,

If you are a critical worker and will need childcare to continue working during a period of closure and national lock-down, please complete the details below. We will contact you about childcare arrangements.

If you have no alternative childcare available and you are an identified critical worker please complete this form which will be used to inform planning. It does not guarantee provision; we expect that this might be a limited resource.

Information about the government's definition of a critical worker is available at this page: <https://www.gov.uk/government/publications/coronavirus-covid-19-maintaining-educational-provision/guidance-for-schools-colleges-and-local-authorities-on-maintaining-educational-provision>
